

October 5, 2013

Dear Students of St. Stanislaus School and Families,

St. Stanislaus School and Polish National Credit Union know the importance of teaching the ABC's of money management skills. The State Treasurer's office has developed a school financial education program, Savings Makes Cents. This program teaches the students through real life experience the importance of good saving habits.

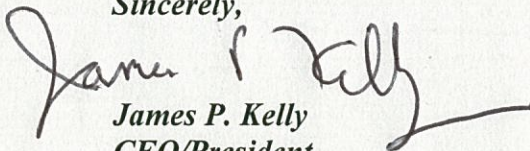

Polish National Credit Union would like to help the students at St. Stanislaus School to start saving their pennies. We would like the opportunity to come to your classroom twice a month so your children will be able to make deposits into their very own savings account. The program will run from October 2012 to the end of May 2013.

All you have to do is stop by any Polish National Credit Union and fill out the necessary paperwork to open the savings account. We will need to see the Social Security card (for verification of number) for the student. At least one parent (legal guardian-with appointment papers) is required to be on the account.

Any questions, please feel free to call the Member Service Department at the Polish National Credit Union at 592-9495.

Thank you.

Sincerely,

*James P. Kelly
CEO/President
Polish National Credit Union*
